

TOUGH VENT TROUSER

CE EN 14404:2004+A1:2010. Type 2 Level 1

WHEN USED IN COMBINATION WITH TIMBERLAND PRO® ANTI-FATIGUE KNEE PAD

- 60% BCI COTTON / 40% RECYCLED POLYESTER**
 Canvas fabric for increased durability with RainRepel™ technology, to aid water repellence with added benefit of oil and stain protection. Made entirely of 60% BCI cotton and 40% Recycled Polyester makes this main fabric is highly sustainable.
- 52% RECYCLED POLYESTER / 30% BCI COTTON / 18% STRETCH BREATHABLE YARN TWILL WITH RAINREPEL™ TECHNOLOGY**
 To keep you cool and able to move whilst working, with added RainRepel™ technology for water/oil/stain repellence and featuring 52% recycled polyester and 30% BCI cotton.
- 100% CORDURA® FABRIC REINFORCEMENTS**
 CORDURA® fabric reinforced pockets, hem and belt loops for added durability, longevity and performance in tough environments.
- 83% STRETCH ARAMID REINFORCEMENT / 12% NYLON / 5% ARAMID FIBRE SPANDEX**
 Integral knee pad pocket designed to minimise knee pad movement, reinforced with Aramid fibres for increased protection from abrasion whilst retaining stretch characteristics.
- 88% NYLON / 12% ELASTANE**
 Seamless four-way stretch gusset and rear calf panel for improved range of motion utilising MIPAN® aqua X® the multi-functional nylon yarn, which provides moisture management and a soft hand feel.

WORKERS FIT - For a classic fit

Canvas fabric for increased durability with Timberland PRO® RainRepel™ technology features an outer layer that resists moisture penetration. It also has a special finish to provide oil and stain protection.

Integrated belt for additional comfort

Two zip-off holster pockets with multifunctional usage and reflective trim

Seamless four-way stretch gusset and rear calf panel for improved range of motion utilising MIPAN® aqua X® multi-functional nylon yarn, which provides moisture management and a soft hand feel

Internal knee pad pocket designed to minimize knee pad movement and reinforced with Aramid fibres for increased protection from abrasion while retaining stretch characteristics. Accommodates Timberland PRO® Anti-Fatigue Technology knee pad inserts

Stretch comfort waistband curved to fit the small of the back

Anti-scratch trims to help protect anything you come in contact with

Multiple, functional pockets at hip and thigh

Hi-viz piping for improved visibility

Ruler pocket and adjustable hammer loop

Double stitched for durability

Breathability vents, zip ventilation on calf for added temperature control

CORDURA® fabric reinforced hem guards
