COMMUNITY METRICS

At Timberland, service is a part of our DNA. A belief in the power of people to transform their communities is one of our core values. We live this value by offering our thousands of creative, dedicated, hardworking employees a number of ways to become involved, including these core programs:

Path of Service™: This employee volunteer program gives full-time staff an annual benefit of up to 40 paid hours and part-time staff an annual benefit of up to 20 paid hours for community service. *Pillar Service Events*: To help employees use their service hours, Timberland organizes global two days of service each year: Earth Day in the spring and our own Serv-a-palooza event in the fall. In 2014, Timberland employees celebrated their one millionth hour of community service.

Each year the Community Engagement team and the Global Stewards (Timberland’s volunteer team of CSR ambassadors who drive our service and CSR agenda worldwide, in addition to their regular job responsibilities) strive to increase employee engagement in community service by offering new service opportunities to employees. Service metrics are measured on an annual basis (from January 1 - December 31) and revert to zero at the beginning of each year.

Hours served reflects the total number of community service hours reported by employees that were served during business hours.

Hours Utilization Rate ("HUR") measures the percentage of available service hours offered to Timberland employees that employees report using year to date.

Benefit Utilization Rate ("BUR") measures the percentage of employees that report serving at least one hour of community service per year.

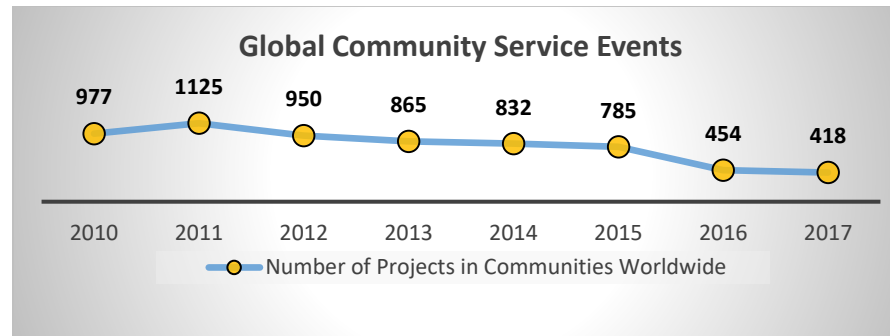

Q1 2018 Result: Timberland employees around the world served 13,325 hours in Q1 2018, compared to 6,602 hours served in Q1 2017. Our manufacturing facility in the Dominican Republic conducted an event that engaged over 950 employees in service, which increased their hours significantly over 2017. Employees in North America increased their hours served by 16.7% over Q1 2017. This increase can be attributed to the PRO Sales Team participating in a 2-day service event at an orphanage in Puerto Rico as part of their bi-annual sales meeting, and the Stratham NH headquarters organized popular in-house projects. Hours Utilization Rate and Benefit Utilization Rate were 5% and 21% respectively, both of which were increases over the same time period in 2017.

COMMUNITY SERVICE EVENTS ORGANIZED BY TIMBERLAND GLOBALLY

To support and encourage Timberland employees to use their Path of Service™ benefit, the Global Stewards are tasked with organizing community service events beyond our annual Earth Day events in the spring and our annual Serv-a-palooza events in the fall. Most service events are designed to engage not only our employees, but also our business partners, VF associates, our customers, and others in the community. This metric shows the number of community service events organized by Timberland worldwide per year.

Note to stakeholders: In 2016, we redefined “service event” to mean “projects involving 2 or more Timberland employees engaging in service to the community.” As such, our number of events decreased to conform to this new guideline.

NON-TIMBERLAND VOLUNTEERS

This metric communicates the extent to which we have increased our impact by engaging volunteers beyond our employee population in hours of service. We strive to engage our business partners, distributors, consumers, and local community members in our events. The purpose of this metric is to show the percentage of Timberland vs. non-Timberland volunteers that participated in Timberland organized service events throughout the year.
