How to Measure Kids' Feet

1. Make sure the printout sizing is accurate by comparing a credit card or quarter to the outline below.
2. Fold up the paper at the dotted line and place on the floor, so the folded section is up against the wall.
3. Have your kid stand on the guide with their heel against the wall and measure their right foot.
4. Try to hold their attention long enough to measure their left foot as well.
5. If their two feet are different sizes, choose the larger size.
